

We Can Make Rubber Band Books: An Independent Writing, Drawing and Reading Center

1.

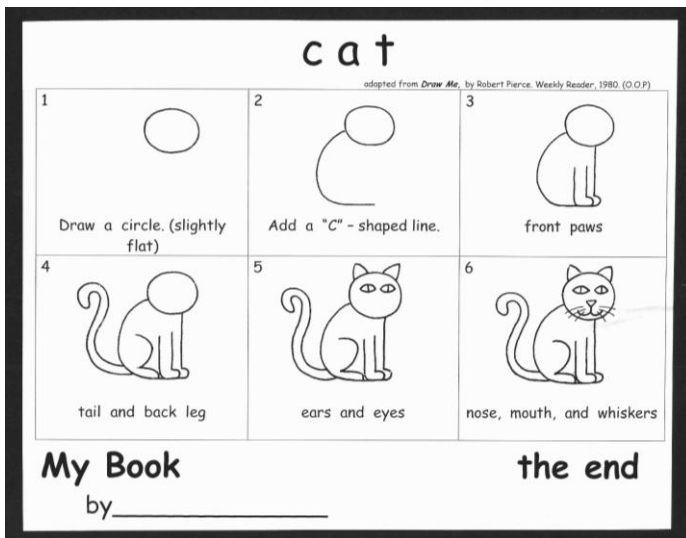

First select a colored cover page and lay one white page on top of it.

2.

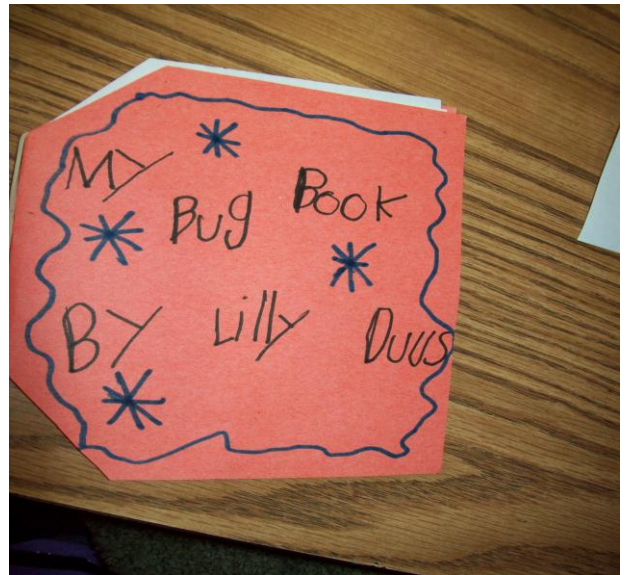

Curl the paper and slide the rubber band into the groove. It fits like a glove. Fold the pages to make a book.

3.

Choose an animal drawing page. Find where it says the animal name and "My Book, by _____".

4.

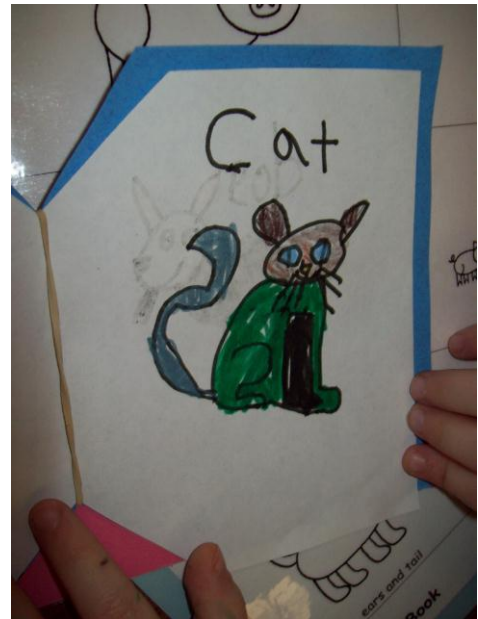

Write **My Book...** by, and your name. Use a black pen.

5.

After you draw an animal, you may choose to color it! Label each page with the animal name.

6.

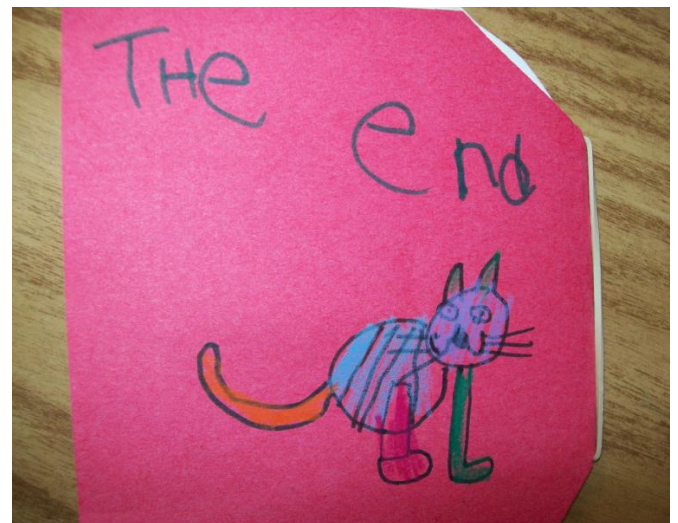

Choose another animal to draw. Remember to use lower case letters when you label your drawing.

7.

You may want to write a sentence about your drawing. Use the sentence models or write independently!

8.

On the last page write, "the end." You can always decorate the front and back cover. Now read your book to a friend.
