

Dear Educator,
Thank you for purchasing our Kindergarten-Friendly Handwriting program. Please check that you have all of the components and our added gifts of little books for writing names.

Kindergarten-Friendly Handwriting, Phonics, and Word Work Program Components

Detailed, 100-page spiral bound **Teacher's Guide**. (Teacher's Guide includes a 6-page, full-color photo essay!)

A set of 40 pages of large group lessons, parent information letters, handwriting chants, drawing templates, and assessment pages. You have permission to make copies of all of these items. (Consider storing these in clear plastic sleeves in a notebook.)

30-page a-z student writing templates with cover page and assessments integrated. *Permission is granted for teachers to make multiple copies of the student book with credits noted year after year.* (This means your school does not need to purchase consumable handwriting books for each new class of children. We recommend binding these into individual notebooks for each child.)

1 sample A - Z bound notebook included as a suggested printing guide.

Sample Parents as Partners Name Writing book: We think this book is so important, we put a sample one together and encourage you to make one for each of your families! It will make a huge difference in how quickly children's name writing improves. (See page 19)

Added Gift: Two additional folded black-line (11"x17") masters for making little books and a folding guide page. (See page 50)
